

## DERAY® -BIOK

### Insulation of terminal connectors

The **DERAY® - BIOK** is a simple and effective system for electrically insulating terminal connectors in ultrasonic sealing and crimped executions.

With the **DERAY® - BIOK**, DSG-CANUSA implements the wishes of the automobile industry to replace the insulation material PVC with more environmentally friendly material, such as, e.g., PP-EPDM.

#### Typical applications:

- Ultrasonically sealed cap connectors
- Crimped cap connectors
